

Program Information Report

Broadcast, Communication, Visual, Digital & Fine Arts

Photographic Technology (APPHOT)

Associate in Applied Science Degree

Program Effective Term: Winter 2025

This program provides a comprehensive foundation in digital and film based photography. Through a combination of required basic courses and specialized elective courses, the student customizes the program to his or her particular interest in the photographic industry. Students have opportunities to work with a variety of advanced photographic equipment including digital cameras, view cameras, traditional darkroom, and various types of studio and location lighting systems. Graduating students produce professional portfolios and self-promotional materials to find employment in a variety of areas such as photographic assisting, photojournalism, fine art, freelance, portrait and wedding photography. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to four-year baccalaureate programs.

Articulation:

Eastern Michigan University, BS degree

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: <https://www.wccnet.edu/learn/transfer-wcc-credits/articulation-agreements.php>.

Program Information Report

School of Digital Media Arts

Creativity abounds in the School of Digital Media Arts which encompasses the disciplines of animation, graphic design, web design and development, photography and digital video. The programs in Digital Media Arts introduce students to foundational skills in these disciplines and prepare them for creative jobs.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

The next level, an Associate Degree, is available for some programs. Credit hours from the certificate can be applied to the credit hours needed for the Associate Degree.

Photography

Develop skills in composition, processing and presentation needed for a satisfying career in professional photography or as a means of personal expression.

Photographic Technology (APPHOT)

Total	21-24 credits		

Please review each General Education Area in the chart below, and record the needed changes in the chart and on the attached semester program layout.

REQUESTED CHANGES	
General Education Area	
English Composition – The requirement for one writing/English composition course remains the same. No changes will be made unless specifically requested below. (Use Writing Elective or ENG 111)	
Optional Change:	No change
2nd Course in English Composition or one course in Communication WCC previously required both a second composition/writing course and a communication course. Your options are:	
<ol style="list-style-type: none"> Allow students to select any course that meets composition/writing or communication (recommended). Require students to take a specific composition course (identify course below and on semester layout). Require students to take a specific communication course (identify course below and on semester layout). 	
Requested Change:	No change - keep required Speech elective

	Mathematics – The requirement for one mathematics course remains the same. However, the courses that meet the MTA requirement have changed slightly. See the course listing for details
Optional Change:	No change
	Natural Sciences - The requirement for one natural science course remains the same. No changes will be made unless specifically requested below.
Optional Change:	No change
	Social & Behavioral Sciences – The requirement for one social and behavioral science course remains the same. No changes will be made unless specifically requested below.
Optional Change:	No change
	Arts & Humanities – The requirement for one arts and humanities course remains the same. No changes will be made unless specifically requested below. (Note: A department can designate a COM course as a requirement here. The same course cannot be counted in two areas.)
Optional Change:	No change
	Computer and Information Literacy The requirement for computer and information literacy has been removed. Your options are: <ol style="list-style-type: none"> 1. Continue to require a specific computer course. If a specific course is required in your program, we will leave it there. If you previously used "Computer and Information Literacy Course," you will need to specify either a specific course or a list of courses from which to choose. 2. Remove the computer and information literacy course if the program will still meet the minimum of 60 credit hours. 3. Remove the computer and information literacy course and replace the course with elective or other credits as needed to meet the minimum of 60 credit hours.
Required Change:	Keep current required course as is (PHO 127)

Program Information Report

School of Digital Media Arts

Creativity abounds in the School of Digital Media Arts which encompasses the disciplines of animation, graphic design, web design and development, photography and digital video. The programs in Digital Media Arts introduce students to foundational skills in these disciplines and prepare them for creative jobs.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

The next level, an Associate Degree, is available for some programs. Credit hours from the certificate can be applied to the credit hours needed for the Associate Degree.

Photography

Develop skills in composition, processing and presentation needed for a satisfying career in professional photography or as a means of personal expression.

Photographic Technology (APPHOT)

Associate in Applied Science Degree

Program Effective Term: Fall 2015

This program provides a comprehensive foundation in digital and film based photography. Through a combination of required basic courses and specialized elective courses, the student customizes the program to his or her particular interest in the photographic industry. Students have opportunities to work with a variety of advanced photographic equipment including digital cameras, view cameras, traditional darkroom, and various types of studio and location lighting systems. Graduating students produce professional portfolios and self-promotional materials to find employment in a variety of areas such as photographic assisting, photojournalism, fine art, freelance, portrait and wedding photography. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to four-year baccalaureate programs.

Students should choose the appropriate faculty for academic advising based on their last name: Terry Abrams (A-G), Jennifer Baker (H-O), Donald Werthmann (P-Z).

Articulation:

- Brooks Institute of Photograpy, BA degree;
- College for Creative Studies, BFA degree;
- Eastern Michigan University, several BS degrees;
- Savannah College of Art and Design, BFA degree.

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: <http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges>.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code ^{AP}PHOT Program Name: Photographic Technology

Effective Term: Fall 2015

Division Code: BCT Department: Digital Media Arts

DEAN BCT DIVISION JAN 26/15

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|--|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input checked="" type="checkbox"/> Remove course(s): <u>PHO 110</u> | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): <u>PHO 122</u> | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input checked="" type="checkbox"/> Other <u>Correct Science Gen Ed Credit Requirement</u> (should be listed as 3-4 credits, not 4) |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

Improve camera operation, pre-visualization, and print making skills for all students through the required experience of a traditional film and darkroom-based workflow.

Financial/staffing/equipment/space implications:

List departments that have been consulted regarding their use of this program.

Photographic Technology (APPHOT)
 Associate in Applied Science Degree

Program requirements shown below are for catalog year: 2011 - 2012 Change Year

Description:

This program provides a firm foundation in silver-based and digital photographic technologies. Through a combination of required basic courses and specialized elective courses, the student tailors the program to his or her particular interest in the photographic field. The program prepares the student to work behind the camera, in the darkroom, and on the computer. Students shoot with large, medium, and small format cameras in both color and black and white. Graduates of the program find job opportunities in commercial studios, amateur and professional photo labs, and photojournalism. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to four-year photography programs.

Please see attached.

PROGRAM CHANGE OR DISCONTINUATION FORM

Program Code: **APPHOT** Program Name: **Photographic Technology**
 Division Code: **BCT** Department: **Visual Arts Technology**

Effective Term: **Fall 2010**

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| <input type="checkbox"/> Remove course(s): _____ | <input type="checkbox"/> Continuing eligibility requirements |
| <input checked="" type="checkbox"/> Add course(s): <u>PHO 110</u> | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

Film based photography is no longer included in PHO 111, PHO 117, or PHO 127 but is still part of a firm foundation in photographic studies. All of the 4-year schools we articulate with still maintain darkroom studies. PHO 110 will provide a hands-on introduction to darkroom-based photography, an awareness of pre-digital working methods, and knowledge of areas of photography where darkroom work is still in practice.

Financial/staffing/equipment/space implications:

None

List departments that have been consulted regarding their use of this program.

None

Photographic Technology (APPHOT)

This program provides a firm foundation in silver-based and digital photographic technologies. Through a combination of required basic courses and specialized elective courses, the student tailors the program to his or her particular interest in the photographic field. The program prepares the student to work behind the camera, in the darkroom, and on the computer. Students shoot with large, medium, and small format cameras in both color and black and white. Graduates of the program find job opportunities in commercial studios, amateur and professional photo labs, and photojournalism. Students also complete the program to use photography as a means of personal expression, and as preparation for transferring to four-year photography programs.

Articulation: Brooks Institute of Photography, BA degree, College for Creative Studies, BFA degree, Eastern Michigan University, BS degree. Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site: <http://www.wccnet.edu/departments/curriculum/articulation.php?levelone=colleges>.

Photographic Technology

This program has two options which provide career training in photographic technology. The photographic technician assists the photographer in a wide variety of photographic environments and assists in the planning, designing, constructing and use of equipment and set-ups. Using photographic techniques, problems are solved through controlled procedures to meet often unusual situations. The technician must be able to operate small, medium and large-format still camera systems and be able to process and enlarge positive and negative black-and-white and color materials. The technician will have more experience and be given more photographic responsibilities than the photographic assistant.

WASHTENAW COMMUNITY COLLEGE
Office of the Vice President of Instruction and Student Services

MEMORANDUM

TO: Roger Bertoia
Dennis Guastella

FROM: Guy Altieri, Vice President of Instruction and Student Services 

DATE: July 13, 1993

SUBJECT: Core Curriculum Assessment of the **Photographic Technology** Program

A comprehensive review of all degree programs for inclusion of core elements has now been completed. The Photographic Technology Program form has not been received by this office for approval of core elements. A careful review of the existing program from the 1992-93 catalog, shows that it does not meet the following core elements: 10,14,16,17,20

Please review the suggested modifications listed below and on the attached program listing. Indicate on the program listing whether you agree with the suggestions or make your own modifications to meet the core elements.

Return the attached program listing signed by the Department Chair and Dean to my office. This listing will be used to provide new program students a description of their degree requirements. It will also serve as the program statement for the 1993-94 edition of the College Catalog. If it is received by July 22nd, it will be included in a packet of 1993-94 program listings which will be sent to new program students during the last week of July. A second packet of program listings will be sent to students at the end of August. Since we have held up final Catalog preparation to include all core curriculum program changes, these in-house produced program listings will be the only updated program statements available for Fall 1993 entry students.

Suggested Modifications:

The English Department has been asked to add element 10 to ENG 100. If this occurs, this program will meet element 10. The alternative is to restrict the English to ENG 111.

Element 14 could be met by adding a humanities elective for 1-3 credits, or resubmitting PHO 111 for element 14, or adding PHO 103 to the program.

Elements 16 and 17 could be met by adding SCI 100 or a science elective for 1 to 3 credits.

Element 20 could be met by resubmitting GDT 242 or submitting other PHO courses for 18,19 & 20 (perhaps PHO 101)

GDT 242 has a prerequisite of GDT 102. This should be changed to something else or GDT 102 added to the program.

CORE CURRICULUM PROGRAM ASSESSMENT

To be used to complete Core Curriculum Project and to be included in the 1993-94 College Catalog.

Photographic Technology Associate in Technical Studies Degree Program: Code PHOT

Full-Time Sequence*	Course Title	Credit Hours
First Semester
