

Program Information Report

Manufacturing & Automotive

Automotive Services Technician (CTASVT)

Certificate

Program Effective Term: Fall 2022

High Demand Occupation High Skill Occupation High Wage Occupation

This program prepares students for employment as a certified automotive technician. Students will diagnose and repair malfunctions in automobile engines, suspensions and steering systems, brakes, electrical and electronic systems and engine drivability issues. This program also offers opportunities to explore vehicle performance, diesel, alternative fuel vehicles, hybrid vehicles and to participate in the building of performance vehicles. The program prepares the student for the State of Michigan Mechanic Certification tests as well as the National Institute for Automotive Service Excellence (ASE) Certification Exams.

Articulation:

Eastern Michigan University, several BS degrees.

Copies can be obtained from the Counseling Office, a program advisor, or from the Curriculum and Assessment Office Web site:
<https://www.wccnet.edu/learn/transfer-wcc-credits/articulation-agreements.php> .

WASHTENAW COMMUNITY COLLEGE

PROGRAM CHANGE FORM

Program Code: CTASVT	Current Program Name: Automotive Services Technician	Effective Term: Fall 2022
Division Code: ATP	Department: Transportation Technologies	

Directions:

1. Attach the current program listing from the WCC catalog or website and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using CurricUNET, but should be submitted at the same time as the program change form.
4. If changes affect the program assessment plan or if program outcomes are updated, please submit a Program Assessment Plan Change form. These changes must be approved separately from the program change form and should be submitted at the same time. Current program assessment plans can be found on the Curriculum and Assessment Program Information page.

Requested Changes:

- | | |
|---|---|
| <input checked="" type="checkbox"/> Remove course(s): <u>See attached</u> | <input type="checkbox"/> Program outcomes (may also result from removing or adding a course)* |
| <input checked="" type="checkbox"/> Add course(s): <u>See attached</u> | <input type="checkbox"/> Program assessment plan* |
| <input type="checkbox"/> Program title (new title is _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Program admission requirements | |
| <input type="checkbox"/> Continuing eligibility requirements | |

Note: A change to the Award Type requires the submission of a new program proposal form and a separate program inactivation form. Contact the Director of Curriculum & Assessment for more information.

Show all changes on the catalog page you attach.

* Please submit a Program Assessment Plan Change form.

Rationale for proposed changes:

Minor changes and corrections to: Course contact hours, Course(s) removed that were inactivated and replaced with concentration applicable course(s), Reviewed and refined the restricted elective course list(s) per concentration and reviewed the students' pathway to completion based on frequency of scheduling (Sun/Moon chart).

Financial/staffing/equipment/space implications:

List departments that have been consulted regarding their use of this program.

All departments that are affected have been consulted.

PROGRAM CHANGE OR DISCONTINUATION FORM**

Program Code: Program Name:
 CTASVT Automotive Services Technician
 Division Code: Department:
 ATP Transportation Technologies

Effective Term:
 Fall 2020

Directions:

1. Attach the current program listing from the WCC catalog or Web site and indicate any changes to be made.
2. Draw lines through any text that should be deleted and write in additions. Extensive narrative changes can be included on a separate sheet.
3. Check the boxes below for each type of change being proposed. Changes to courses, discontinuing a course, or adding new courses as part of the proposed program change, must be approved separately using a Master Syllabus form, but should be submitted at the same time as the program change form.

Requested Changes:

- | | |
|---|---|
| <input type="checkbox"/> Review | <input type="checkbox"/> Program admission requirements |
| X Remove course(s): <u>ASV258, MEC101, ASV 251, ASV 257</u> | <input type="checkbox"/> Continuing eligibility requirements |
| <input type="checkbox"/> Add course(s): _____ | <input type="checkbox"/> Program outcomes |
| <input type="checkbox"/> Program title (title was _____) | <input type="checkbox"/> Accreditation information |
| <input type="checkbox"/> Description | <input type="checkbox"/> Discontinuation (attach program discontinuation plan that includes transition of students and timetable for phasing out courses) |
| <input type="checkbox"/> Type of award | <input type="checkbox"/> Other |
| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

MEC101, ASV251, ASV257 are being removed from a restricted electives list. ASV258 is being removed as a required course. This change is being made to reduce the total number of credit hours to 30 (from 36). The frequency of each course offering, the time(s) of day each semester, and the alignment of content with expressed employers' skill sets were considered.

This program update (CTASVT) will be accompanied with program updates (CTAUBR) and proposals (CTASV2, APOETT) to align and streamline a student's chosen concentration within the Transportation Technologies Department. All of the proposed programs and program updates focus on a guided pathway for students to complete certificates and degrees for their selected concentrations. These proposals and updates are intended to produce a better prepared student for employment opportunities and lead to an increased completion rate.

Financial/staffing/equipment/space implications:

None

| <input type="checkbox"/> Advisors | |
| <input type="checkbox"/> Articulation information | |

Show all changes on the attached page from the catalog.

Rationale for proposed changes or discontinuation:

The frequency of each course offering, the time(s) of day each semester, and the alignment of content with expressed employer's skill sets were considered. Prerequisites were also reviewed, and the courses were chosen to limit registration restrictions that always require overrides. Department Chair of each department was consulted to consider prerequisite updates to avoid automatic unneeded overrides for registration.

A new course was added (WAF 109), this is a new course that better aligns with program goals. Courses were added to restricted electives, including CST 185 which is a new/updated course (previously CST 225, and not previously included in restricted electives). Added MST 110 and MEC 101 as restricted electives. These changes were made to better align the courses with the program goals.

Program Information Report

CTASVT

School of Automotive and Motorcycle Technology

If you are looking for the best technical training in the automotive or motorcycle field, WCC's School of Automotive and Motorcycle Technology is the place for you. Whether your focus is finding employment as a technician, learning about performance equipment, or creating a custom look, our introductory and advanced certificate programs, as well as associate degrees, will enhance your personal and professional qualifications. These programs offer the perfect blend of classroom and hands-on education not available in many other educational settings.

Washtenaw Community College offers programs at several levels for students who want to begin new careers, or advance in their existing careers. The first level is the certificate, which can vary from nine to thirty-six credits, depending on the field. Certificates generally prepare students for entry-level jobs.

After completing a certificate, students can progress to the next level, the advanced certificate. The credit hours required for these programs also vary. This type of certificate provides a more specialized level of skill development, and often allows students to upgrade their positions at their places of employment.

The next level, an Associate in Applied Science, is available for some programs. For some career fields, it is possible to earn a certificate, advanced certificate (if one exists), and an Associate in Applied Science degree in the same field. In these cases, the credit hours from the certificate and advanced certificate can be applied to the credit hours needed for the Associate in Applied Science degree.

Alternatively, students can earn an AAS in Occupational Studies by completing a certificate, advanced certificate and General Education requirements.

Automotive Services

The automotive certificate prepares the student for work as an automotive services technician, diagnosing and repairing malfunctions in automobile systems.

<p>Program Description for Catalog and Web site</p>	<p>This program prepares students for employment as a certified automotive technician. Students will diagnose and repair malfunctions in automobile engines, suspensions and steering systems, brakes, electrical and electronic systems and engine drivability issues. This program also offers opportunities to explore vehicle performance, diesel, alternative fuel vehicles, hybrid vehicles and to participate in the building of performance vehicles. The program prepares the student for the State of Michigan Mechanic Certification tests as well as the National Institute for Automotive Service Excellence (ASE) Certification Exams. Students can earn an AAS degree by completing the requirements for the Occupational Studies Program.</p>																																																																										

Program Information	Accreditation/Licensure - NATEF Advisors - Advisory Committee – Already in place. Admission requirements – None. Articulation agreements – Already in place. Continuing eligibility requirements – None.
----------------------------	---

Assessment plan:

Program outcomes to be assessed	Assessment tool	When assessment will take place	Courses/other populations	Number students to be assessed
Diagnose, repair and service mechanical, hydraulic and electrical engine components.	NATEF Checklist	Fall 2012 and every 3 years thereafter	Graduates who completed ASV 251, 252, 253, 256 and 258	Approximately 30
Diagnose, repair and service major suspension, steering components and brake components,	NATEF Checklist	Fall 2012 and every 3 years thereafter	Graduates who completed ASV 254 and 255	Approximately 30

Scoring and analysis plan:

1. Indicate how the above assessment(s) will be scored and evaluated (e.g. departmentally developed rubric, external evaluation, other). Attach the rubric.

NATEF Checklist will be scored using the attached rubric.

2. Indicate the standard of success to be used for this assessment.

80% of the students will score an overall average of 80% or higher on the relevant skills

3. Indicate who will score and analyze the data.

Faculty will blind-score the data whenever possible.

4. Explain how and when the assessment results will be used for program improvement.

Assessment data will be evaluated to identify any areas of weakness. Program and course instruction will be reviewed to identify ways to improve student performance.
