

Washtenaw Community College

Computed Tomography (CPCTOM)

The Computed Tomography program will not run in the Fall 2025 semester due to the upcoming retirement of our current program instructor. WCC is in the process of hiring a new faculty member, and until that position is filled, we are unable to provide a definitive timeline for when the program will be offered again.

If the program is offered in the Fall 2026 semester, the application is expected to become available in mid-April 2026.

Students are admitted to the program on a **first-qualified basis until all seats are filled or until the application deadline (whichever comes first)**. The final application deadline for the Fall 2026 semester (if offered) is anticipated to be in **late July or early August 2026**. Information regarding WCC's [Limited Enrollment Admission Process](#) can be found on our website.

To be eligible to apply for the next available admission cycle, all admission requirements must be successfully completed by the application deadline. Please revisit this link/website in mid-April 2026 to download the Fall 2026 application packet (if offered). Current [admission and program requirements](#) can be found on WCC's website.

If you have not yet applied to WCC, please submit an [admission application](#) to the school. You must be admitted to the school before you will be eligible to apply to our program.

Program requirements are specific and we recommend contacting William Nelson (Program Director) for advising at (734) 677-5119 or wnelson@wccnet.edu.

Please direct questions about submitting an application to our Health and 2nd Tier Admissions Office at (734) 973-3596, (734) 477-8998, or healthadmissions@wccnet.edu.
